Why Should I Use BlingMaster Aluminator and Green Stuff?

- *BlingMaster is a revolutionary chrome and metal polish/cleaner using advanced Nano Technology for a long lasting protected Bling.*
- *BlingMaster Aluminator will polish and protect aluminum, chrome, brass, bronze, stainless steel, gold, silver, and many other non-coated metal surfaces.*
- *It will impart a brilliant, mirror-like shine to all your faded metal surfaces, such as; metal boats, truck and auto wheels, motorcycle tubing and exhaust pipes (bluing), brass handrails and fixtures, bronze cemetery memorials, jewelry, silver tea services, aluminum tractor/trailer/motor home/RV surfaces, golf carts, snowmobiles, etc...*
- *It is safe and easy to use.*
- *The cleaning process is fast: Just wipe on and rub a few seconds until the polish turns black. Then wipe off. Your done!!!*
- *For tough jobs, BlingMaster Green Stuff will remove years of neglect from your metal surfaces. It is a more aggressive version of Aluminator and will impart a less brilliant shine. Use Aluminator after using the Green Stuff for a brilliant Bling.*
- *Because of the advanced Nano Tecnology in BlingMaster products, your metals Bling is long lasting. No need to apply a wax or other products.*

BlingMaster Aluminator

BLINGMASTER ALUMINATOR WITH NANO TECHNOLOGY IS A EASY, LONG LASTING, FAST DRYING APPLICATION FOR POLISHING AND PROTECTING ALUMINUM AND OTHER METALS. IT WILL IMPART A BRILLIANT, MIRROR - LIKE SHINE TO YOUR FADED METAL SURFACES. BLING ON WITH BLINGMASTER.

DIRECTIONS: WIPE LIGHTLY AND VIGOROUSLY ON DRY NON-COATED SURFACE WITH A CLEAN DRY CLOTH UNTIL POLISH TURNS BLACK. WIPE OFF WHEN DRY WITH AN ADDITIONAL CLEAN DRY CLOTH FOR A BRILLIANT BLING..... SHAKE WELL BEFORE AND DURING USE, BECAUSE PRODUCT WILL SEPARATE. DO NOT USE ON ANY TYPE OF OVERCOATING

BlingMaster Green Stuff

BLINGMASTERS " GREEN STUFF " IS A MORE AGGRESSIVE VERSION OF OUR REGULAR ALUMINATOR, FOR TOUGH JOBS THAT HAVE BEEN NEGLECTED FOR YEARS. IT WILL IMPART A LESSER BRILLIANT SHINE THAN THE ALUMINATOR. USE ALUMINATOR AFTER USING GREEN STUFF FOR A BRILLIANT, MIRROR - LIKE SHINE. PRODUCT APPLICATION AND USE ARE THE SAME AS FOR OUR BLINGMASTER ALUMINATOR PRODUCT.

BlingMaster Power Buff Ball

The BlingMaster Power Buff Ball is the ideal all-around buffer, perfect for polishing and buffing any surface, even those hard-to-reach areas without scratching surfaces. The BlingMaster Power Buff Ball is perfectly sized for buffing:

- Wheels & Rims
- Aluminum Running Boards
- Cars, Motorcycles, Boats, AirPlanes, Motor Homes, etc...
- Antiques
- Patio Furniture
- Painted Surfaces, Stainless Steel, Aluminum, Brass and Other Metal Surfaces

Unlike foam buffers that burn, scorch and tear, the BlingMaster Power Buff Ball features soft Italian viscose fibers that can be repeatedly washed and re-used. Use with Aluminator and/or Green Stuff for an eye-popping brilliant shine.
